Professional Summary

Software Developer with 3 years of hands-on experience building responsive and dynamic web applications. Proficient in React.js, Node.js, and MongoDB with strong understanding of UI/UX principles. Proven ability to deliver clean, maintainable code and build real-world solutions such as real estate platforms and a movie booking application.

Technical Skills

• Languages: HTML5, CSS3, JavaScript, Node.js

• Frameworks/Libraries: React.js, Express.js, TailwindCSS

• Database: MongoDB

• Tools: Git/GitHub, VS Code, Figma, Postman

• Other: Responsive Web Design, UI/UX Design Principles, Problem Solving

Projects

Movie Booking Web Application

• Developed a full-stack booking app using React.js (frontend) and Node.js/Express (backend).

• Integrated MongoDB for data management (users, movies, bookings).

• Implemented seat selection, booking confirmation, and Paystack mock payment flow.

• Designed a fully responsive UI for desktop and mobile.

Real Estate Platform

• Built a responsive property listing website using React, CSS, and JavaScript.

• Enhanced UX with modern design and dynamic UI components.

• Managed source control and collaboration via GitHub.

Portfolio Website

• Designed and deployed a personal portfolio showcasing web projects.

• Implemented responsive layouts and accessibility best practices.

• Leveraged Git for version control.

Cosmetics Brand Landing Page

Created a responsive landing page for 'Merito Cosmetics' using HTML, CSS, and JavaScript.

• Applied mobile-first design for seamless performance across devices.
